TABLE OF CONTENTS
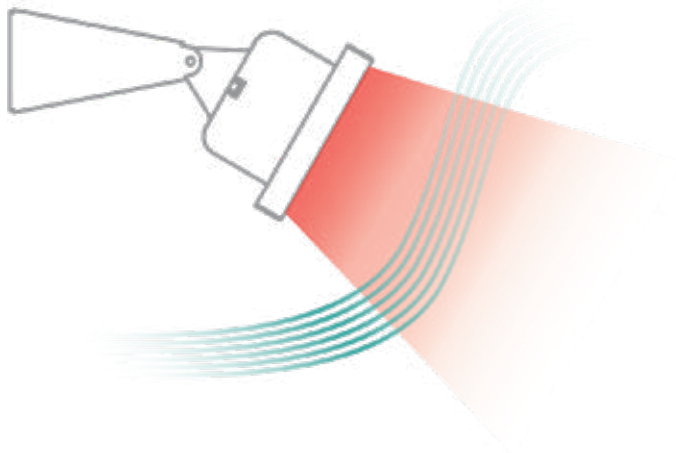

INFRATECH

Infrared Fact:

Infratech electric heaters are specifically designed so heat doesn't blow away in windy or drafty fall air.

WHY INFRARED HEAT?

INFRATECH
COMFORT

A heated quartz element emits a safe, clean wavelength of light that is only absorbed by solid objects, transferring heat directly to a person, table or floor rather than heating the air.

For this reason, infrared heat can be distributed very evenly, and will not simply "blow away" in windy or drafty conditions. Infratech medium wave quartz element heaters are 93% efficient and emit a barely discernible, pleasing glow that will not affect the ambience of your gathering – unlike competitive short-wave or halogen electric heaters that produce a very harsh glare or bright-colored light.

COST OF OPERATION & MAINTENANCE

OPERATION

It's simple to determine the cost of operating an Infratech heater—multiply the rate charged by your local utility company by the wattage of your heater.

Your Utility Rate **X** Wattage of Your Heater **=** Cost of Operation

EXAMPLE: Your utility charges $0.15* / kilowatt hour (kW) X 3 (for a 3000 watt heater) = $0.45 / hour

*This is the National Average. Utility charges will vary.

MAINTENANCE

Unlike traditional gas heaters, Infratech electric heaters are virtually maintenance free. For long lasting use, we recommend once a year to spray the heater with a hose and wipe down. Our elements are rated to last 5,000 hours, plus they are simple and inexpensive to replace.

When you consider our low cost and minimal maintenance, Infratech heaters are easily the first choice when heating outdoor space.

# 3 STEPS TO CHOOSING YOUR INFRATECH SYSTEM

INFRATECH COMFORT

STEP 1: MEASURE THE AREA

Determine the approximate measurements and mounting heights of the area you want to heat (Include: length, width, and height). Also consider where people will gather and spend time, like dining or lounge areas.

LENGTH HEIGHT WIDTH
8'L x 8'W x 9'H

LENGTH HEIGHT WIDTH
20'L x 10'W x 14'H

8'L x 8'W x 9'H

11'L x 11'W x 14'H

STEP 2: SELECT THE HEATERS

Select the heater(s) that will work both functionally and aesthetically for your space. Consider factors such as size, voltage, number of heaters, colors, and mounting options.

C-20
HEAT COVERAGE AREA: 6' x 6'
MOUNTING HEIGHT: 7' to 9'

C-25 | CD-30
HEAT COVERAGE AREA: 7' x 7'
MOUNTING HEIGHT: 7' to 9'

C-30
HEAT COVERAGE AREA: 8' x 8'
MOUNTING HEIGHT: 7' to 9'

C-40
HEAT COVERAGE AREA: 10' x 10'
MOUNTING HEIGHT: 8' to 11'

CD-40
HEAT COVERAGE AREA: 8' x 10'
MOUNTING HEIGHT: 8' to 12'

CD-50
HEAT COVERAGE AREA: 9' x 10'
MOUNTING HEIGHT: 8' to 12'

CD-60
HEAT COVERAGE AREA: 11' x 11'
MOUNTING HEIGHT: 10' to 14'

NOTE: Indoor or well-protected environments will generally exceed average coverage. Heaters may provide less than average coverage in extremely cold or windy conditions.

3 STEPS TO CHOOSING YOUR INFRATECH SYSTEM

STEP 3: CHOOSE THE CONTROLS

Choose a control option that works best for your application and budget.
Options include value controls, solid-state relay control package, home management integration panel and the new universal control panel.

VALUE CONTROLS

Simple On/Off Switch Duplex/Stack Switch Infinite Control Regulator

Single Contactor Panel Dual Contactor Panel

SOLID STATE RELAY CONTROL PACKAGE

Solid State Relay Panel
Zone Analog Controller w/ Digital Timer

HOME MANAGEMENT INTEGRATION PANEL

UNIVERSAL CONTROL PANEL

C-SERIES, GARAGE HEATER

1500 WATT HEATER (PLUG-IN)

Item #	Model	Color	Volts	Amps	Length	Retail
21-3004-BLK	21-3004	Black	120	12.5	33"	$399

- Infratech's best-selling black Contemporary Series (C-Series) 33-inch, 1,500 watt (120 volt/12.5 amps) heater is constructed from cold roll steel with black end covers, and offers clean, efficient performance with modern styling.

- It provides effective spot heating to create a range of indoor bonus spaces, and can be installed to heat a workbench, exercise equipment, desk, gaming area, crafting table, and more.

- Odorless infrared heat is emitted from a quartz element, for year-round comfort with zero emissions.

- It can be mounted to a wall or ceiling using the mounting brackets provided or suspended with chains. **At the suggested mounting height of 6'–7', the coverage area is 5' x 5', for more targeted warmth**.

- It can be controlled remotely via a smartphone or smart home assistant when installed with a heavy duty smart plug.

- Comes with a 6' cord for easy DIY installation.

SL-SLIMLINE SERIES
SINGLE ELEMENT HEATERS

Logo Plate designed to rotate if required

T-Slot on back allows the mounting bracket to slide for flexible mounting options.

- Infratech's SL-Series is designed with a low profile that is suitable for both indoor and outdoor surface mount applications.

- Fixtures are available in lengths of 29 ½", 42 ½", and 63 ½".

- Features include narrow profile and a T-slot for flexible mounting options.

- The SL-Series housing body and mounting brackets come with a stainless hue anodized aluminum finish. Also available in All Black Slimline Shadow™.

- Available in 208V (pg 24), 240V (pg 7) and 277V (pg 25). Single Phase or 3 Phase.

C-SERIES SINGLE ELEMENT
304 Stainless Steel

| White | Almond | Beige | Biscuit | Black | Bronze | Copper | Grey |

- Single element heaters provide the coverage and intensity of heat necessary for optimum comfort.

- Fixtures are available in lengths of 33", 39" and 61 ¼".

- The **C-Series** fixtures are developed for use in high visual impact locations where their sleek design blends seamlessly.

- Compatible with all of Infratech's Custom Controls for residential or commercial use.

- May also be installed with simple On/Off controls or INF controls (INF only up to 3000W).

- Choose from Brushed 304 Stainless Steel, Black, Bronze, White, Almond, Beige, Biscuit, Copper and Grey. See page 9 for stocking colors.

- Features Include: Minimal Clearance Requirements, Recessed Mounting Options, Short Standoffs, and Mounting Heights between 7'-11'.

- Includes: Standard Mounting Brackets that can be used for both wall and ceiling installation.

- Available in 208V (pg 24), 240V (pg 9), 277V (pg 25), and 480V (pg 26). Single Phase or 3 Phase.

INFRATECH CONTROLS

WE HAVE THE RIGHT CONTROL SYSTEM FOR ANY SITUATION, ANY BUDGET.

- Infratech custom heating systems help outdoor spaces transition into comfortable sites for entertaining. In addition to standard colors, sizes, control options and heating capacities, our associates are pleased to work with customers in order to design one-of-a-kind solutions for your home or business.

- The finest hotels and resorts use Infratech to design custom heaters and control packages that seamlessly integrate into the total design and style of their properties. Working directly with clients, designers, architects and engineers, Infratech can develop new heater shapes, colors and profiles that are unique to your specific project.

- Infratech designs and manufactures custom UL Listed 508 controls to regulate much more than just heat output. Our custom controls come with timer capabilities and can be integrated with Home Management Systems.

What Control System is Right for You?

VALUE CONTROLS   See page 16-23

ON/OFF SINGLE SWITCH

- Your Simple On/Off Switches may be used in conjunction with all single element heaters.
- Ideal low cost option for your single element heaters
- 20 Amp max per switch
- Wire your heater to the switch, then the switch to your electrical service panel.
- Recommended to be used with C Series and Slimline heaters

ON/OFF DUPLEX STACK SWITCH

- Your Duplex Stack Switches may be used with all dual element heaters.
- Ideal low cost option for your dual element heaters allowing you to turn on both elements or just 1 element for ½ power.
- 40 Amp max per stack, 20 Amps per switch.
- Wire your heater to the switch, then the switch to your electrical service panel
- Best used with all CD & WD Series heaters

DIGITAL TIMER CONTACTOR PANEL

- Each Contactor has a maximum of 6000-watt capacity at 240V
- Offered in Single (6000) or Dual (12000) Contactor configuration
- Digital Timer included
- Type 1 Enclosure (Must be mounted indoors)
- UL Listed
- Wiring Diagrams for each configuration
- 3-Year Warranty
- Automate this system by sourcing your own WiFi/Bluetooth 120V switch.

INFINITE CONTROL (INF) REGULATOR

- Infratech control allows you to turn up or down the intensity of the heater.
- Each dial has a max of 3,000 Watts allowed.
- Each dial has a max of 15 Amps allowed.
- Controlling each element separately using 2 INF Switches for a Dual Element unit is not recommended.

VALUE CONTROLS

INFRATECH COMFORT

ON/OFF SINGLE SWITCH

- ■ Ideal low cost option for your single element heaters
- ■ 20 Amp max per switch
- ■ Wire your heater to the switch, then the switch to your electrical service panel.
- ■ Recommended to be used with C Series and Slimline installations.

VALUE CONTROLS

ON/OFF DUPLEX STACK SWITCH

- ■ Duplex Stack Switches may be used with all dual element heaters.
- ■ Ideal low cost option for your dual element heaters allowing you to turn on both elements or just 1 element for ½ power.
- ■ 40 Amp max per stack, 20 Amps per switch.
- ■ Wire your heater to the switch, then the switch to your electrical service panel.
- ■ Recommended to be used with CD & WD Series installations.

INFRATECH CONTROLS

UNIVERSAL CONTROL PANEL   See page 20

- 120V Universal Slide Dimmer provided for convenience (1 per Relay)
- The Universal Control is a complete solution that will work with almost any 120V lighting system
- Universal Control Panel is 508/UL-listed and made in the USA
- A WiFi/Bluetooth switch can be purchased separately for operation from your smart phone
- Compatible with Alexa, Google Home Assistant, or Lutron Caseta Switches

HOME MANAGEMENT SYSTEM   See page 21

- Infratech's Home Management Control is compatible with top selling systems like Savant™, Lutron™, Crestron™, Control 4™, and others.
- Infratech's simple interface requires a 0-10V DC signal for streamlined installation and straightforward programming.
- This control option allows the user the ability to save preferred heat settings for off-site control via mobile device, control zones, heat intensity, timer functions, and more!

SOLID STATE RELAY PACKAGE   See page 22

- Infratech's Solid State Controls are engineered for your individual project and suitable for commercial or residential installations of any size.
- Multiple zoning capabilities.
- Adjust the intensity of heat of one or more heaters in a specified target area with Infratech's analog dial controls.
- Controls are built to UL 508 listing, which is a higher safety standard than the National Electric Code (NEC).
- Heaters are hard wired directly to the Solid State Relay Panel.
- Tested before leaving the factory, and provided with wiring diagrams for each installation.

Universal Controls

A luxury home where convenience is at a premium. A scenic resort where a seamless look is desired. An exclusive hot spot with multiple heating zones.

At Infratech, we know that our customers have different needs when it comes to the controls they choose for their properties. This is why we offer a broad range of custom control options that allow you to enjoy your Infratech heaters "your way". From comprehensive Solid State Control Packages to Smart Home Integration Panels, and now our new Universal Control Panel that enables you to choose your own switches. There's an Infratech custom control that can help you unlock the versatility, functionality, convenience and comfort you desire from your Infratech heating system.

Ships from Infratech

UNIVERSAL CONTROL PANEL

- 120V Universal Slide Dimmer provided for convenience (1 per Relay).
- The Universal Control is a complete solution that will work with almost any 120V lighting system.
- Universal Control Panel is 508/UL-listed and made in the USA.
- A WiFi/Bluetooth switch can be purchased separately for operation from your smart phone.
- Compatible with Alexa

SPECIFICATIONS

- Each relay has a max capacity of 9,000 Watts.
- Control (3) 3,000 Watt heaters off 1 Relay, or (1) 6,000 Watt heater off 1 Relay.
- Do NOT mix heater wattages on a single relay.
    - **EXAMPLE**: You can NOT put a 3,000 Watt heater and a 6,000 Watt heater on the same relay.
- Infratech advertises up to a 6 Relay Control Panel, however the number of relays can be unlimited if the power supply is adequate. (Call for quote.)
- Each switch can control up to three (3) relays.

SOLID STATE RELAY & CONTROLS

INFRATECH
C O M F O R T

CONSISTS OF A SOLID STATE RELAY PANEL AND ZONE ANALOG CONTROLLERS

- Infratech's Solid State Controls are engineered for your individual project and suitable for commercial or residential installations of any size.
- Multiple zoning capabilities.
- Allows the option to adjust the intensity of heat for one or more heaters in an area.
- Controls are built to UL 508 listing, which is a higher safety standard than the National Electric Code (NEC).
- Heaters are hard wired directly to the Solid State Relay Panel.
- Tested before leaving the factory, and provided with wiring diagrams for each installation.

SOLID STATE RELAY PANEL

RELAY
LOW VOLTAGE INPUT TERMINAL STRIP (FROM ZONE ANALOG CONTROLLER)
MAIN DISTRIBUTION BLOCK AND GROUNDING LUG
HEAT SINK
BREAKERS

Up to 9000 Watts on each Relay
(3) 3,000 Watts, (2) 4,000 Watts, (1) 5,000 or 6,000 Watts
Must be the same wattage on relay.

SOLID STATE RELAY PLACEMENT

- Surface Mount in a well ventilated area.
- Heat Sinks are the 1" deep Aluminum Extrusions on the left and right sides of the panel. It is suggested the power be brought in through the top or bottom of the panel (not from the back).
- Minimum clearance is 6" on each side, 12" from the top and bottom.
- Additional clearance will be needed if placed in a poorly ventilated area.
- NEMA 4 Rated, which is completely weather resistant.
- Must be accessible per National Electric Code (NEC).

TWO ZONE ANALOG CONTROLLER W/ DIGITAL TIMER

DIGITAL TIMER
ON / OFF SWITCH
INTENSITY CONTROL KNOB

Up to 3 Relays on each heat intensity knob.

ZONE ANALOG CONTROLLER PLACEMENT

- NEMA 12 Rated, will need to be mounted in a well-protected covered area.
- Zone Analog Controllers can be installed in any suitable location that will make it convenient to control the heater(s).
- Custom NEMA 4 housing also available upon special order.
- The timer has 5 settings from 15 mintues to 4 hours.

SOLID STATE RELAY & CONTROLS

SPECIFICATIONS

- Each relay has a max capacity of 9,000 Watts.

- Each heater on a single relay must be the same wattage.

- The relay box is installed as a sub-panel. The heaters are connected to the sub-panel, then the sub-panel connects to the main electrical service panel.

- Each Control Knob can control up to 3 Relays.

  - **EXAMPLE**: Control (3) 3,000 Watt heaters from 1 Relay, then Control 3 Relays from 1 Solid State Dial Control - Giving you the ability to control 9 heaters with 1 control knob.

Ships from Infratech
