## RADIANT HEAT

Hargrove’s Radiant Heat and Stealth Radiant Vented log series offers much greater heating efficiency than traditional vented gas logs. The Radiant Riser technology directs heat forward into the room, giving radiant heat comparable to vent-free logs.

## REFRACTORY

Hargrove’s Refractory Log sets provide natural realism and traditional look to your hearth with deep bark and intricate wood textures. Each log is hand painted replicating the most realistic logs. Hargrove Refractory logs are reinforced with metal mesh, withstanding temperatures over 2000°F.

*See Hearth Accessories section of this catalog for additional glass media.*

Hargrove recommends using between 2"-4" depth of glass on their burner kits. 1 lb of Fireglass and Firebeads cover approximately 20 cubic inches. To determine how much glass is necessary, determine the volume of the area you would like to fill. Formula: Fireplace Width X Fireplace Depth X Glass Depth

## 30" Vented

Slope Glaze Burners raise the standard for dancing flames. Ceramic beads inside the burner tumble the gas to create exceptionally realistic flame movement.

**Choose one Burner and one Log Set to make a complete Set.**

## BURNERS

Millivolt Control with Standing Pilot, On/Off Switch, and Piezo Ignition.

Item No	Description	BTU	Retail
VSR30N	30" Burner, NG	75,000/60,000*	\$945
VSR30P	30" Burner, LP	75,000/60,000*	\$945
